

# GEAR UP FOR HIGH PERFORMANCE

# OCTAGEN<sup>®</sup>

POWER. PROTECTION. PERFORMANCE.

High Performance Gear & Transmission Oils

## Gearmatic 75W-90

Manual Transmission Fluid

Octagen Gearmatic 75W-90 is semi synthetic manual transmission oil, specially designed for synchromesh gearboxes. It is blended with high quality base stock and carefully selected extreme pressure additives and highly shear stable viscosity index improver to provide unmatched extreme pressure protection.

**Key benefits:** Gives excellent protection against oxidation ■ Provides high level of cleanliness to all critical components in gearboxes ■ Provides maximum protection against corrosion ■ Extended oil drain intervals ■ Maintains excellent fluidity even at very low temperatures allowing speed changes smoothly and easily

**Meets requirements of:** API GL 5

**Pack Size:** 1L, 2.5L

## Gearmatic 80W-90

High Performance Gear and Transmission Oil

Octagen Gearmatic 80W-90 is a multigrade gear and transmission oil meeting API GL-4 performance. It is formulated from high quality base stocks and superior extreme pressure additives which protect against gear wear and scoring. It provides high oxidation stability, minimising sludge and deposit formulation, resulting in facilitating longer gear and bearing life.

**Key benefits:** Excellent protection against rust and corrosion ■ Good anti-wear and high load carrying characteristics help extend component life ■ Excellent seal compatibility helps minimise leakages and reduces the chances of contamination ■ High performance under severe stress, heavy loads, varying speeds and temperatures ■ Increases oil drain period by resisting oxidation and oil thickening

**Meets requirements of:** API GL 4

**Pack Size:** 1L, 2.5L, 5L, 20L

## Gearmatic GL - 4 SAE 90

High Performance Gear and Transmission Oil

Octagen Gearmatic SAE 90 is a high performance gear oil and transmission oil recommended for use in manual transmission and gear box requiring API GL-4 performance. It is designed with superior extreme pressure additives to provide better protection to gear components against wear and scoring, high friction and severe operating conditions.

**Key benefits:** Reduces sludge build up, resulting in cleaner surface and smooth gear shift ■ Extended gear life due to excellent protection from wear ■ Good anti-foam properties ensuring film strength for effective lubrication ■ Superior lubrication at varying temperatures & speeds ■ Prevents premature gear system failure by maintaining viscosity

**Meets requirements of:** API GL 4

**Pack Size:** 0.5L, 1L, 5L, 10L, 20L

## Gearmatic 85W-140

High Performance Rear Axle Oil

Octagen Gearmatic 85W-140 is a high performance, heavy duty, multigrade gear oil recommended for use in axles, transaxles or differentials requiring API GL-5 performance. It is formulated from high quality base stocks and superior extreme pressure additives that protect gears operating under high loads. It provides high oxidation stability, minimising sludge and deposit formulation, resulting in facilitating longer gear and bearing life.

**Key benefits:** Extended component life due to minimal deposits ■ Excellent protection against low speed/high torque wear and against high speed scoring ■ Better oxidation and thermal stability helps maintain viscosity for a longer period, preventing premature gear failure ■ Excellent seal compatibility helps minimise leakages and reduces chances of contamination ■ High performance under severe stress, heavy loads and varying speeds and temperatures

**Meets requirements of:** API GL 5

**Pack Size:** 1L, 5L, 20L

## Gearmatic GL - 4 SAE 140

High Performance Axle Oil

Octagen Gearmatic SAE 140 is a high performance, heavy duty gear oil recommended for use in axles requiring API GL-4 performance. It is formulated from high quality base stocks and superior extreme pressure additives that protect gears operating under high loads. It provides high oxidation stability, minimising sludge and deposit formulation, resulting in facilitating longer gear and bearing life.

**Key benefits:** Excellent rust and corrosion protection ■ Excellent anti-foam properties ensuring film strength for effective lubrication ■ Superb load carrying capability ■ Cleaner rear axle surface and reduced sludge build up providing an extra smooth rear axle operation ■ Increases oil life by maintaining its viscosity even at extreme environmental conditions

**Meets requirements of:** API GL 4

**Pack Size:** 1L, 5L, 20L

## Octagen UTTO

Multipurpose Oil for Transmission-Hydraulic-Wet Brake Systems

Octagen UTTO is high performance multipurpose tractor lubricant specially formulated to use in transmission, differential, hydraulic systems, wet brake and other ancillary systems fitted to agricultural tractors and off-road equipments. It is formulated with select group II base oil and robust additive package to provide resistance to rust, corrosion and oxidation.

**Key benefits:** Advanced friction modifiers provide smooth wet break operation and minimise chatter, stick-slip and squawk ■ Superior anti-wear performance protects critical components of systems against scuffing and wear ■ Good filterability in hydraulic system improves equipment life and reduces maintenance ■ Excellent low temperature fluidity means responsive hydraulic performance and rapid equipment protection

**Pack Size:** 5L, 20L

# Octagen ATF

Automatic Transmission Fluid

Octagen ATF is formulated from high quality base stocks and superior performance additives, providing outstanding protection for the automatic transmission system against wear and corrosion. Its high viscosity index ensures unmatched lubrication at high operating temperatures. It is suitable for use in automatic transmissions of passenger cars and light duty trucks, torque converters, hydraulic systems, power steering systems and transmissions requiring GM Type A Suffix A specification.

**Key benefits:** Superior oxidation and thermal stability minimize deposit formation even at high temperature ■ Optimum friction modifier provides smooth gear operation ■ Provides effective lubrication at low temperature operation ■ Ensures long service life ■ Offers superior anti-wear protection to critical parts

**Meets requirements of:** GM Type A Suffix A

**Pack Size:** 0.5L , 1L, 5L, 20L

# **PRODUCT RANGE:**

CAR ENGINE OILS

BIKE ENGINE OILS

TRACTOR ENGINE OILS

TRUCK ENGINE OILS

AUTOMOTIVE GREASES

COOLANT

HYDRAULIC OILS

INDUSTRIAL GREASES
